

# PLAY IT Forward

## The Scenario:

Giving back to the world community is something that is increasingly relevant for today's progressive organizations. This fast-paced adventure race combines orienteering and GPS technology with interactive team initiatives, while uniting team members as they work towards a common goal.

Participants will be *playing it forward* with the purpose of raising funds for Kiva - the world's first person-to-person micro-lending website. Kiva empowers individuals to lend directly to unique entrepreneurs in the developing world. Visit [www.kiva.org](http://www.kiva.org) for more information.

## The Program:

- Each team chooses an entrepreneur to raise funds for
- Teams must locate and retrieve hidden cash from a series of locations
- To find the cash, teams must utilize GPS navigation, compass coordinates, problem solving and teamwork
- Groups will be given resources (GPS, compasses, etc.), instruction and planning time to develop their strategy
- This innovative scavenger hunt will put these strategies to the test as groups must use their team skills to maximize their lending potential for their entrepreneur
- Teams will have an opportunity to reflect on their approach to this challenge in order to identify learning that transfers to the real world

## Program Outcomes:

- ü Elevating team spirit and morale
- ü Developing effective team relationships
- ü Encouraging social responsibility by giving back to the global community in a tangible way

*"I would say that our session with Frontier Team Building was both a great team bonding experience and a chance to get out with our team members and have a really good time, while learning something along the way."*

Kandi Blishen, BMO Financial Group
